## SUMMARY

A couple chance encounters with Ubuntu in 2017 turned me on to the idea of making computers work for me. Since then I have completed the 16 week immersive full-stack boot camp at DigitalCrafts where I was working primarily on the PERN stack. I am looking for an opportunity that will allow me to expand my depth into those areas while expanding my breadth of knowledge in the development field.

## SKILLS

**Languages:** HTML, CSS, JavaScript, Python, PostgreSQL

**Frameworks/Libraries:** Node.js, Express, Handlebars.js, jQuery, React, Redux, Bulma

## EXPERIENCE

DigitalCrafts | Full-Stack Web Developer

April 2018 – August 2018

- 16-week immersive, full-time web development program.
- Worked primarily on the PERN(PostgreSQL, Express, React, Node) stack and intro work with Python.
- Recent projects include:
  - Better Day | [Front End](#) / [Back End](#) August 2018
    - Online journaling and forum site based around preset categories
    - Full stack project built using React, Redux, Node.js(express), and PostgreSQL
  - The Mound | [GitHub Repo](#) April 2018
    - Web application to pull up to date baseball stats on players and games
    - Built with HTML, CSS, Ajax, jQuery
  - COD3R | [GitHub Repo](#) July 2018
    - Web application designed to help programmers find other programmers
    - Built with HTML, CSS, Node.js, Express, PostgreSQL, OAuth
    - User information verified through GitHub
